

This is Utopia (Roman 01): **(and bold 01)**.

This is Utopia (Italics 01): (and bold 01).

This is Utopia (Italics with special digits 01): (and bold 01).

Another example: the command `\textsi`: *Here we are*, 01.

The command `\specialdigits` switches *italics* (01) to special italics. Without this command *italics (01)* are italics.
